

Press Release: **Stax Series**

Named after the way each piece is stacked in staggering heights, then fused to create solid panels, **Stax Series** offers another ingenious way to create feature walls over very large surfaces. Three patterns are available: **Beamz** (straight planks), **Flex** (twisting fluid shapes), and **Breez** (gentle rises).

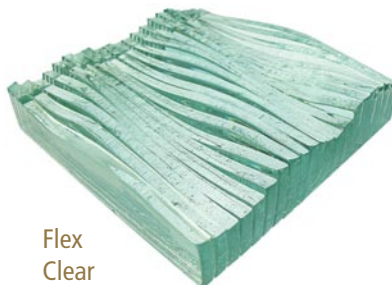

SPECIFICATIONS

SHEET SIZES	up to 5'0 x 9'0 sheets
THICKNESS	typically 1.25" thick (varying 1–1.5")
GLASS	currently available in clear glass only
PATTERNS	Beamz, Flex, Breez (vertically or horizontally)
COLORS	color (standard or custom) finishes applied to the flat back surface
REFLECTIVE	mirrored backing may be applied over the color finish to provide a greatly enhanced appearance
SAFETY	glass can't be safety tempered, but can be laminated to a flat glass or mirrored panel, qualifying as safety glass
WEIGHT	approximately 14.5 lbs per square foot (a 5'0 x 9'0 panel will weigh about 650 lbs)
