

Essentials Press Release JANUARY 2012

For the architect or designer unwilling to compromise the luxurious detailing of hand-made cast glass, Essentials Series answers the constraint of a tighter budget. Allow light to fill your space naturally, the way you envisioned.

There's no need to sacrifice deep texture for pressed glass, nor suffer the pang of specifying resin. Need another environmental plus? Inherently non-porous, glass automatically offers bacterial protection. The 6 textures of Essentials Series are provided as ready-to-install panels, with no wastage — pay only for the actual glass ordered. Order our sample box to see and feel the difference cast glass makes.

A minimum order of 500 square feet starts at just \$30 per square foot.
