NATHAN ALLAN GLASS STUDIOS

CONVEX PINNACLE

# PRODUCT INFORMATION

Convex Pinnacle Textured Glass is one of our newest cast glass designs. Our original Convex textures are produced and developed by Nathan Allan Glass Studios in collaboration with the prestigious architectural firms Janson/Goldstein NYC, Front Inc, and Joyce Wang, Hong Kong. Exploiting the potential for enhanced dimensionality in glass, Convex Pinnacle Architectural Glass is produced with deep 3D surfaces. Deep textures allow for dimensional viewing from both sides. Convex Pinnacle Architectural Glass can be produced in single layer tempered glass panels as well as double layered laminated glass panels. Available in clear and low-iron glass. Color finishes, privacy coatings, and silver backing, are also available.

---
