NATHAN ALLAN GLASS STUDIOS

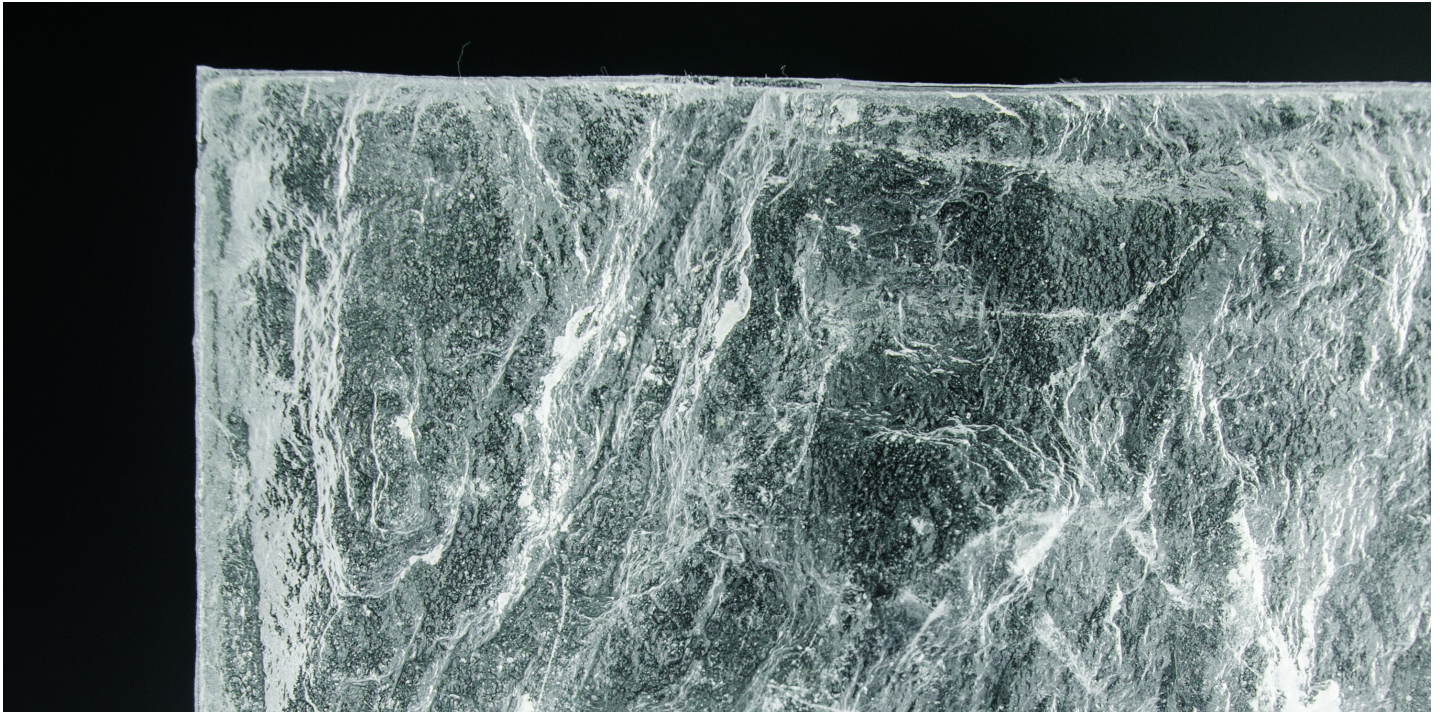

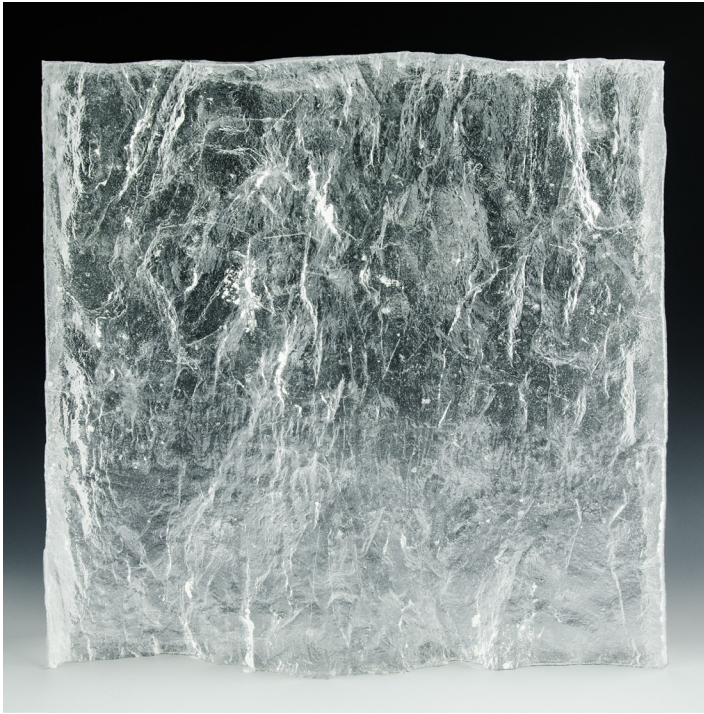

CRYSTALLINE GRANITE

PRODUCT INFORMATION

Crystalline Granite Textured Thick Glass is produced using Nathan Allan's special Crystal Clear glass, which is completely colorless. Produced in 1" to 4" thick panels, our Crystalline Granite Textured Thick glass has deep crevice like fissures through the glass surface. The peaks and valley of this glass are extreme, creating an absolutely stunning glass feature. The simulation of split faced granite formed into glass, is an amazing visual. Edge details include light or heavy texture surfaces, or our exclusive thick edge polished detail. Just imagine this glass as a feature wall in a lobby or a wall behind a registration desk. Crystalline Granite glass will be the feature product which makes your interior design project stand out from all other projects. Note that if required, we can also produce in a safety laminated version.

Collection :	Josiah J Collection
Series :	Crystalline
Glass Type :	Crystal Clear
Finishes :	Frosted
Max. Size :	5'0 x 10 (1500 mm x 3000 mm)
