NATHAN ALLAN GLASS STUDIOS

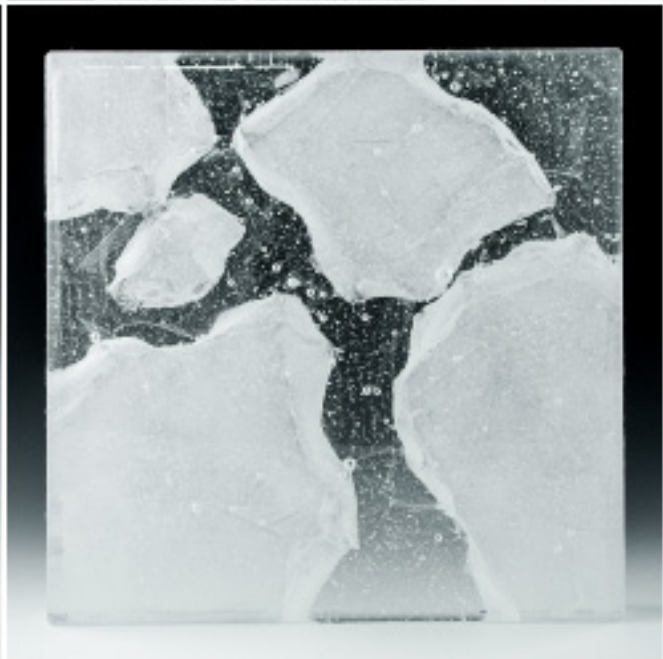

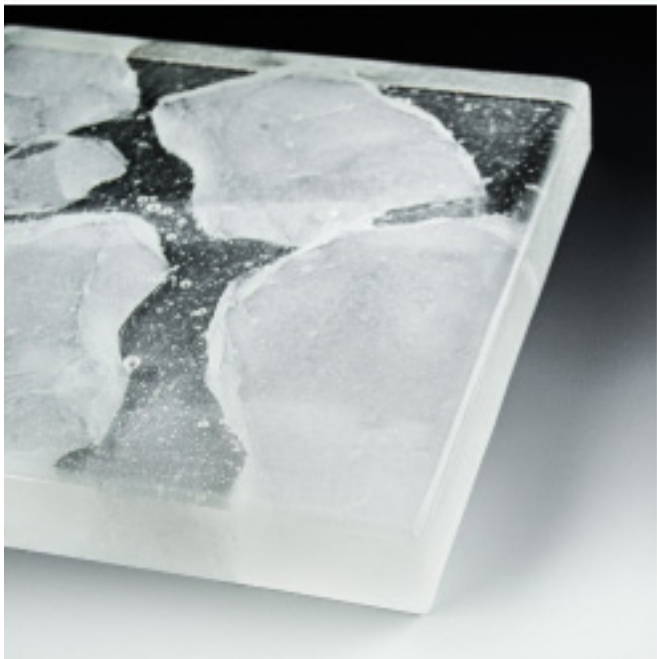

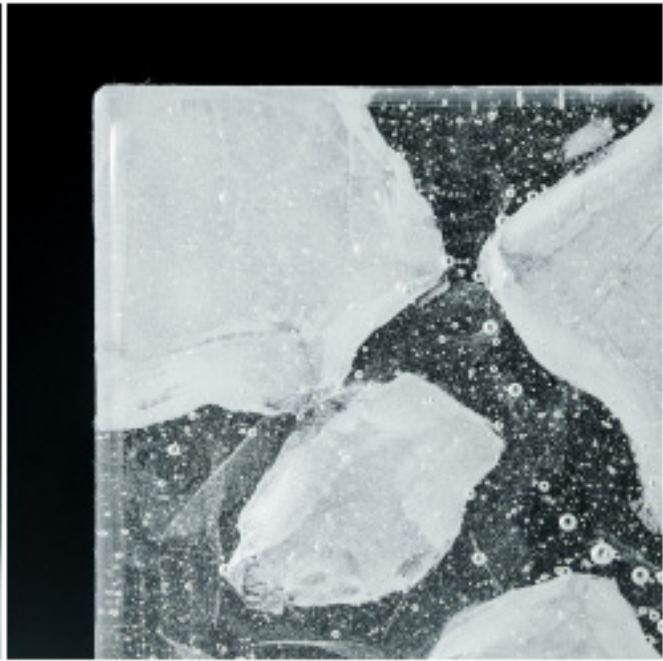

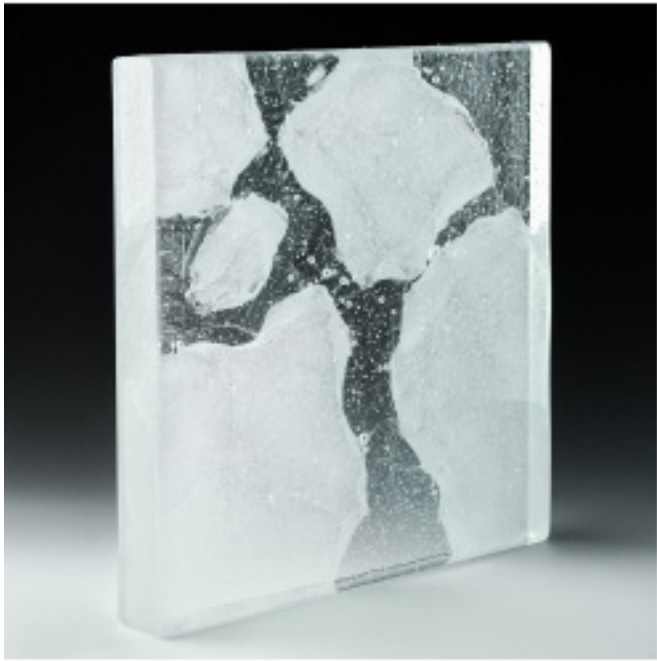

# PRODUCT INFORMATION

Iceberg Textured Glass. Surrounded by hundreds of migrating air bubbles, frames of nuggets appear to float within the glass, creating a dreamy environment of fluid forms inspired by glaciers and icebergs. Iceberg invokes a fresh, watery, floating context of glass islands streaming aimlessly within an invisible boundary. Iceberg nuggets, with chiselled edges, are solidly formed then melted within a sea of clear glass formations. The intricate production methods create panels of vivid glass features, where the Icebergs appear to move and float as if gently flowing with an ocean current.

# PROJECT DETAILS

## PRIVATE RESIDENCE, VANCOUVER BC

Creating unique glass is common for Nathan Allan. However, we've even impressed ourselves with our latest creation, Iceberg Glass. This multi complex glass can be used in a variety of applications. For example, as shown here in this gorgeous private residence, our Iceberg Architectural Glass was used in 5 different applications in the home. From accent panels to feature panels, or as stunning glass shelves, our 1.5" thick Iceberg Glass shows how "cool" architectural glass by Nathan Allan really is.

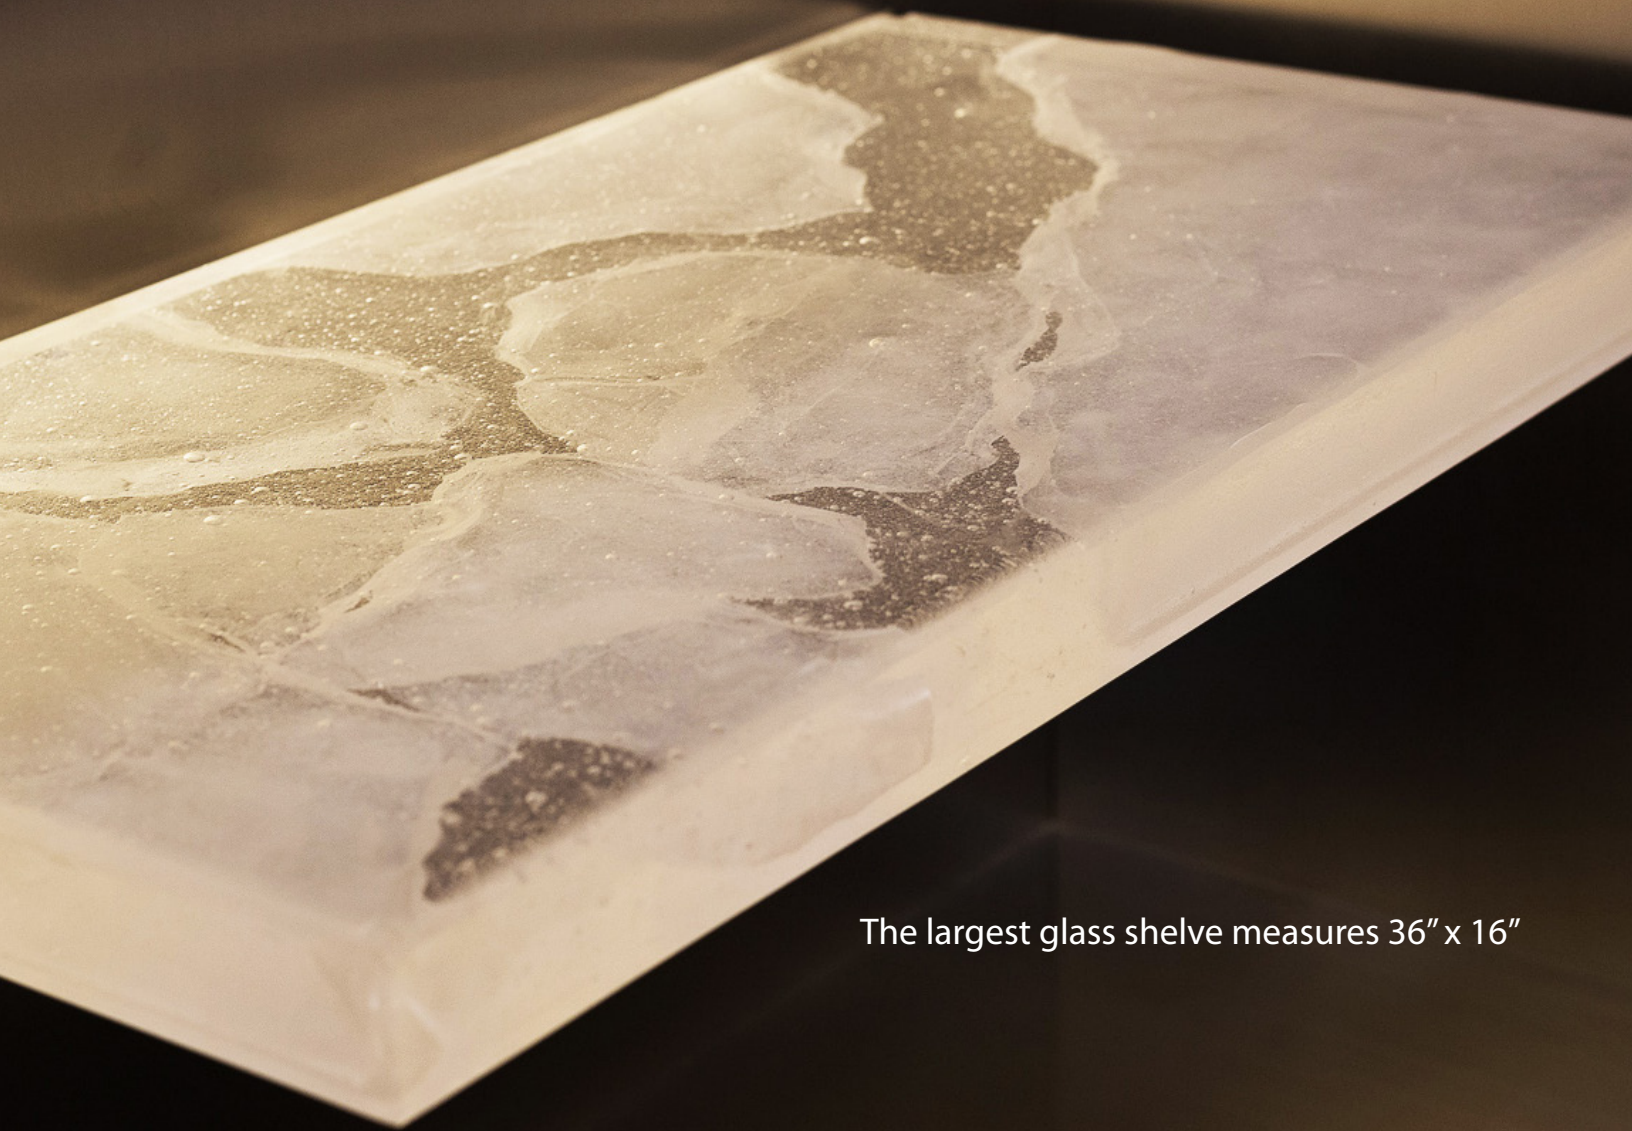

The largest glass shelf measures 36" x 16"

**PROJECT DETAILS:**

**Collection:** Josiah J

**Series:** Iceberg

**Texture:** Iceberg

**Glass:** Crystal Clear

**Thickness :** 15 (38mm)

**Dimensions:** 20'0 x 9'6 (6096mm x 2896mm)

**Designer:** Garret Cord Werner Architects & Interior Designers

**Installer:** Nathan Allan
