MOLTEN GLASS

PRODUCT INFORMATION

Molten Thick Glass is most commonly used in glass countertop applications. Produced in our standard 1.5" (38mm) thickness, this thick, heavy glass is intriguing in design, and durable in function. Detailed textures are formed into the bottom surface while air bubbles float effortlessly throughout the glass. Choose from over 70+ Unique Textures.

Integral color flows throughout the glass, adding a vibrant visual appearance. As the colors are integral, they are durable and do not wear off or fade. This unique Molten Thick glass is initially being offered in 5 color selections, with many more to be introduced soon. Additionally, Molten Glass is available in 1", 2", 2.5" and 3" thickness.
