

SAWTOOTH MICRO TEXTURED GLASS

PRODUCT INFORMATION

Sawtooth Micro textured glass is our #1 pattern within 4 linear architectural glass designs in this category. This upright, vertical design contains triangular teeth which are 3/32" high at their peak. The peak to peak distance between teeth is 1/4".

The peaks and depressions of each continuous pattern line provide a symmetrical balance from top to bottom. The fully textured, (Sandstone texture) angular surface creates an effective privacy barrier. Sawtooth Micro is available in clear, low iron, bronze or black glass, and can be safety tempered. Panels available up to 5'0" x 10'0" (1500mm x 3000mm) maximum size. Frosted and color finishes are available upon request.
