STAX BEAMZ LOW IRON

PRODUCT INFORMATION

Named after the way each glass blade is stacked, then fused together. Stax Series offers another ingenious way to create exciting feature walls over very large surfaces. Three patterns are currently available: Beamz (linear design), Flex (twisting fluidity) and Weavz. Layers of glass are fused together to create solid panels. The back surface is lightly textured and flat. However, the front surface face of each panel will be staggered, with varying heights and shapes. As Stax Glass is too thick to temper, we cannot produce as safety tempered glass. However, we can laminate our Stax Glass to flat panels of clear, frosted, colored or mirrored back panels. Once laminated, the glass can be classified as safety glass.

MAXIMUM PANEL SIZE	FEET	METERS
Annealed	4 x 10	1.2 x 3.0
PANEL THICKNESS	Minimum 3/4" (19 mm) Maximum 1.25" (32mm)	
Clear	•	•
Low Iron	•	•
Edgework	Natural texture	
Color Finishes	Lucent, Pearl	
Privacy Finishes	Mirror, Frosted, Etched	
Safety	Annealed Laminated to mirror, clear, or etched panel	
Cleaning	Our glass products can be cleaned with liquid cleaners and paper towels, or soft clothes. Liquid cleaners with out ammonia will help reduce streaks on the glass. Avoid all abrasive cleaning materials.
