

RIFT TEXTURED GLASS

PRODUCT INFORMATION

Rift Textured Glass combines various architectural glass details into one final portrait. Narrow, raised clear lines are produced in a Linear Architectural arrangement, and deftly formed into our Sandstone texture. This subtle pattern is perfect for applications where a textured privacy glass is required, which incorporates a strict arrangement of details, but ever so softly. Noticeable, unique, but not too bold.

Rift Textured Glass can be viewed from both sides and is ideal in partitions, dividers, and doors. Produced in safety tempered glass. Select from clear, low iron, bronze or black glass. Available in any panel size, up to a maximum of 5'0 x 10'0.

Applications: Balustrades, Dividers, Doors, Feature Walls, Partitions

MAXIMUM PANEL SIZE		FEET	METERS
