# Convex Triangle

## PRODUCT INFORMATION

Convex Glass is an extremely unique glass product. Created by Nathan Allan, Convex Glass has a deep 3-Dimensional surface, which is awe inspiring to view, and extremely complex to produce. Using proprietary Free Forming glass procedures, Convex Glass provides a beautiful visual appeal, while also creating a light distortion and shadowing effect. This dual combination creates a level of privacy for our clients, while allowing a high percentage of light to travel through the glass and illuminate the space. After the kiln-forming process, panels can be safety tempered or laminated. In specific projects, Convex Glass has been tested in labs against hurricane force winds, and seismic activity.
Convex Series are comprised of 7 textures - **Aero, Circle, Nexus, Rectangle, Square, Triangle, Honeycomb**

| MAXIMUM PANEL SIZE | FEET | METERS |
|---|---|---|
| Annealed or Tempered | 5 x 10 | 1.5 x 3.0 |
| GLASS TYPES / THICKNESS | 3/8" 10 MM | 1/2" 12 MM |
