NATHAN ALLAN GLASS STUDIOS

PRODUCT INFORMATION

Rush Textured Glass. Rush Textured Glass is designed to simulate the stirring flow of moving water. Whether one is observing a fast, rippling effect of ocean water as the tide comes in. Or picturing the downpour of a rain storm against a window, Rush invokes the mesmerizing movement of water which can be so encapsulating. This new, texture less, clear design is the result of a unique custom mold creation, which previously was only available in straight linear patterns.
