FLUTED BLACK SILVERED

PRODUCT INFORMATION

Fluted Black Silvered Architectural Cast Glass, part of Nathan Allan's exclusive Freeform Series, is the first "texture less" kiln formed glass in our industry. Inspired by ancestral Architecture, Fluted Black Silvered is one of many linear designs, newly created by Nathan Allan. Freeforming Flutes are created within this design, each at 1/4" (6mm) wide. Each flute is separated by a thin, textured, continuous crease. The 3D convex surface of each flute provides a unique, contrasting privacy within the elegant linear design. This Classic Architectural pattern is once again bringing life to historical designs.
