

CRYSTALLINE CLEAR – POLISHED

PRODUCT INFORMATION

Crystalline Clear – Polished Glass is produced using Nathan Allan's special Crystal Clear glass, which is completely colorless. Produced in 1.5" to 4" thick panels, our Crystalline Clear – Polished Glass does not have texture on any of the glass surfaces or edges. The entire glass panel is crystal clear, polished, and texture less. The shimmering surfaces of this glass allow for an incredible view into the glass itself, where floating air bubbles move throughout the glass. Ideal for unique Thick Glass furniture tops, Crystalline Clear – Polished Glass is also used as wall dividers, partitions, and feature walls. When required, we can also produce in a safety laminated version.

Minimum Panel Size 1'0 x 1'0 (300mm x 300mm)

Maximum Panel Size 5'0 x 10'0 (1500mm x 3000mm)

Glass Thickness 1" to 3" (38mm to 75mm)
