

# CRYSTALLINE ROCKY MOUNTAIN TEXTURED

## PRODUCT INFORMATION

Crystalline Series Thick Glass has many new features which Nathan Allan has introduced to the interior design industry. All Crystalline products use our special Crystal Clear glass, which is completely clear and tone less. At times, referred to as Water Glass, this glass literally has no color tint. Crystalline Glass is produce only in Heavy Thick Glass options, beginning at 1.5" thick and up to 4" thick panels. Clients have the option to select from extreme deep textures or our softer flat textured surfaces. But the most impressive detail about our Crystalline Glass is our Silky Smooth polished surfaces, where the entire glass panel is completely clear and polished. Just another incredible exclusive at Nathan Allan!
